IDEAL FOR

Solo Travellers · Couples · Families · Groups · Corporate Offsites

CONSCIOUS HOSPITALITY

At Thour Nature Resorts, sustainability isn't a policy statement — it's how we operate. Every stay helps fund fair, dignified work for Rabari artisans and herders, and every dish on our table is sourced from what the surrounding villages grow, raise, and craft by hand. This closed-loop approach keeps the land wild, local tradition alive, and the community that shares this landscape with Jawai's leopards firmly rooted in their home — making every stay a small, continuing act of conservation.

BORN OF THIS LAND

Resident, naturalist-led safaris — guides trained in Jawai's terrain and leopard behaviour, many drawn from local Rabari families who have tracked these hills for generations

In-house organic farming, farm-to-table on our plate — fresh, chemical-free produce grown on our own land, and dishes built on direct, ongoing relationships with surrounding villages, not third-party suppliers

Owner & property manager directly accessible to every guest during their stay — not a call-centre experience
